Blood Assurance is in urgent need of your type! One trauma could wipe out our inventory and local patients need your help now.

This time of year is challenging for us as we see a decrease in donors starting the week of Christmas all the way through until the end of January. We are feeling the effects of this trend and are experiencing low

inventory. Please give if you can. Thirty minutes can save 3 lives.

Blood Assurance has less than a 1-day supply of B Negative, which is a critical level.

Please find time to give today! Below are some upcoming opportunities that we hope are convenient for you!

Please eat a good meal, drink additional water and avoid energy drinks!

Click on the calendar icon below to schedule an appointment at the drive.
